

## FRMetS Register

Becoming a Fellow normally requires a formal qualification (eg. a first degree in a science subject and/or post-graduate degree or an NVQ in a relevant discipline) and at least five years of professional experience within or directly related to meteorology. Exceptionally, long experience and performance at a high professional level, suitably attested by peer review, can replace the requirement for a formal academic or vocational qualification. MSc or PhD study in a relevant subject counts as one or two years experience respectively.

### [Apply to become a Fellow](#) <sup>[1]</sup>

To be considered for election to Fellow applicants need to be proposed by two existing Fellows.

Those elected may use the appellation FRMetS as a measure of professional competence in meteorology. Those elected to Fellow before this scheme was introduced on 5 September 2003 will need to apply for the use of FRMetS.

<b>Title</b>	<b>Forenames</b>	<b>Surname</b>	<b>Suffix</b>
Dr	Bengamin Ivan	Moat	FRMetS
Lt Cdr	Paul David	Monger	FRMetS CMet
