

FitzRoy Prize

Regulations for the FitzRoy Prize

The Prize shall be awarded for distinguished work in applications of meteorology or related sciences, especially if published in Society journals. For this purpose, “applications” shall be defined as “scientific, technical, commercial and administrative aspects from the point of view of the end user”. The main requirement is that the work is of use to meteorologists, users of meteorological products and those engaged in the dialogue between them. The Prize shall be awarded biennially. The Prize shall not be confined to members of the Society and no person shall be eligible for the prize a second time.
